Microsoft Solutions Partner

GLOBAL BANKS | ASSET MANAGERS | HEDGE FUNDS

Artemis is Options' Managed Detection and Response (MDR) solution. By providing high quality, low false positive alerts, and real-time response capabilities all within a centralised platform, Options Artemis goes beyond mere threat detection. Integrating advanced threat intelligence, machine learning, and continuous monitoring, Artemis not only identifies malicious activities but also swiftly mitigates them, ensuring minimal impact on your business. Its ability to adapt and evolve alongside emerging threats, offers a robust defence that safeguards your valuable assets.

Key Features

- 24x7x365 SOC
- Over 25 Million Raw Logs Correlated Daily
- Threat Monitoring & Hunting Services
- 1000+ Use-cases for Every Data-Source
- EDR/XDR Capabilities; Integrated Visibility
- Cross Client IoC Analysis
- Forensic Capabilities
- Automate Response Playbooks
- Tailored Reporting & Client KPIs
- Insider Threat Protection

Artemis Framework

Options Artemis provides in depth visibility in real-time and at global scale. Choose Artemis for a resilient and proactive cybersecurity strategy that goes beyond industry standards, providing peace of mind in an ever-evolving digital landscape.

CORRELATE

- 24/7 x 365 Monitoring
- Vendor Agnostic Log Correlation
- Over 25 Million Raw Logs Ingested Daily
- Proactive Threat Hunting

ALERT

- Early Detection of Threats with 1000+ Alert Rules
- Notification sent to SOC Team and Client Stakeholders
- Automated Ticket Generation
- Automated Response Playbooks Triggered

REMEDIATE

- Containment, Eradication and Recovery Actions
