

The Leading Infrastructure and Market Data Provider to the Global Capital Markets

Atlas Enterprise

60+ Data Center Locations

200+ Exchanges Worldwide

80+ Vendor Partners

30+ Years Powering the Global Capital Markets

Unlock the full potential of your data ecosystem with AtlasEnterprise

Whether translating your existing providers' data into the AtlasFeed format or seamlessly converting your AtlasFeed data to your legacy providers' format, AtlasEnterprise facilitates a smooth transition. The suite ensures that you harness the key features of Atlas – characterized by high quality, stability, and reliability.

What is AtlasEnterprise?

AtlasEnterprise is a versatile solution that optimizes your data ecosystem by seamlessly integrating and transforming data between different providers and formats, delivering a comprehensive market data solution.

How is it accessed?

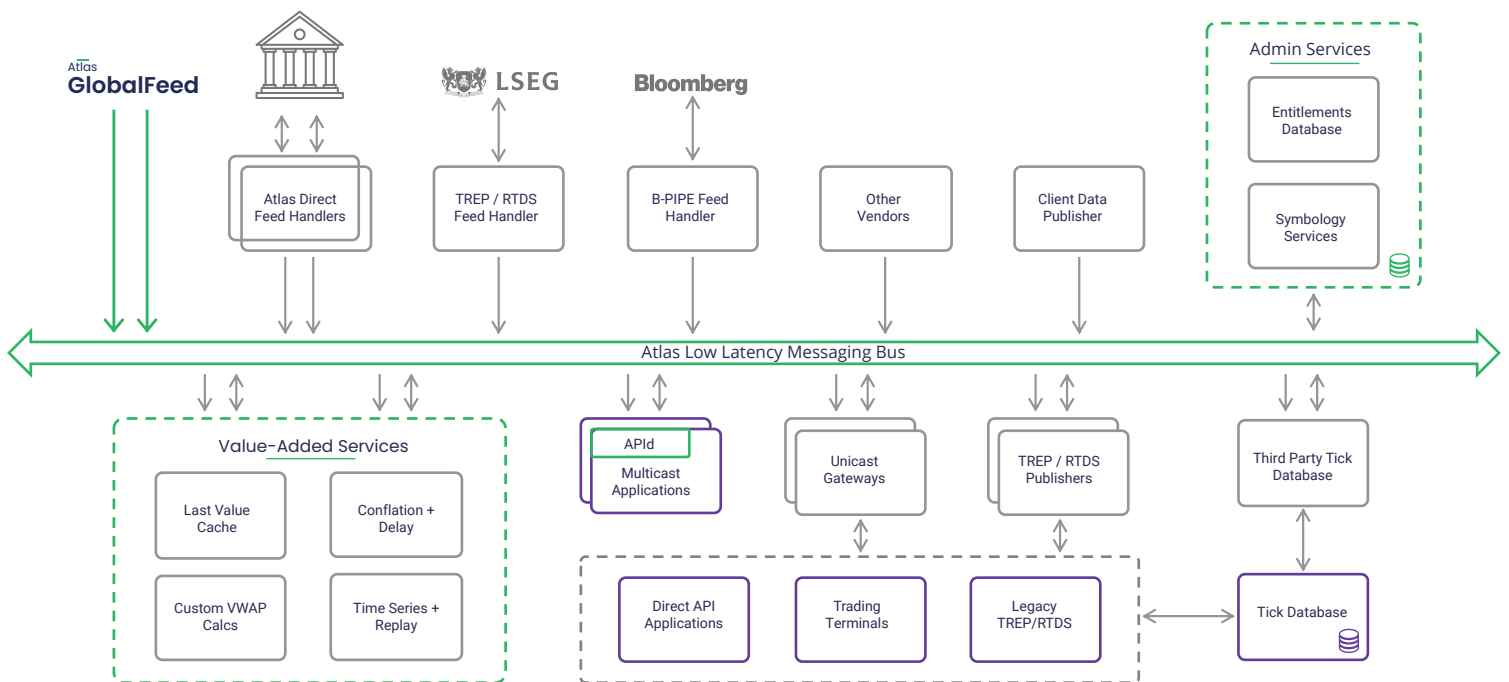

AtlasEnterprise can be accessed through the high-performance and user-friendly AtlasOne API, third-party APIs via one of our Bridge applications (such as TREP/RTDS), or a combination of both.

Why is it unique?

AtlasEnterprise offers convenience, flexibility and control, allowing users to migrate at their own pace with progressive migration support. By simplifying data transformation and eliminating integration challenges, it streamlines both operations and onboarding, easing initial setup and providing users with a competitive advantage.

Our suite of integration and interoperability components enable you to integrate data sources and platforms from different providers in a vendor-neutral way.
