Atlas
Workplace

✅ **Hedge Funds**   ✅ **Private Equity**   ✅ **Asset Managers**

Not every requirement fits within a standard service model. That's why AtlasWorkplace offers tailored solutions for clients who need more - whether you're launching a new office, designing infrastructure for a new application, navigating organizational events like acquisitions or carve-outs, or modernizing and securing your workplace systems. Our approach combines hands-on engineering with strategic advisory: through virtual CTO and CISO engagements, we help you scope projects, plan execution, and manage risks, with clear ownership, thorough documentation, and measurable outcomes.

Tailored Solutions

Every workplace is different. Off-the-shelf deployments often miss the mark, creating security gaps, compliance issues, or operational inefficiencies. AtlasWorkplace gives you a partner who understands the nuances of digital workplace operations, compliance boundaries, and modern workforce demands and adapts solutions accordingly. We don't just support your environment - we help you shape it.

Stategic Advisory

Guidance on technology direction, compliance posture, & security strategy, delivered as ongoing or project-based engagements.

Custom Workplace & Platform Design

Purpose-built desktop, application, & collaboration environments for hybrid, multi-cloud, or regulated deployments.

Event-Driven Support

Specialized services for M&A, carve-outs, divestitures, or rapid scaling events requiring custom infrastructure planning & execution.

Operational Process Design

Tailored provisioning, access, approval & audit workflows aligned with your governance model.

Legacy Modernization

Migration, refactoring, or containerization of outdated workplace systems into modern, secure & flexible environments.

Embedded Delivery Teams

AtlasWorkplace engineers who collaborate directly with your IT leaders and developers throughout design, build & run.

Tailored Precision: Custom Solutions for Your Desktop & Platform Needs

AtlasWorkplace Tailored Solutions deliver around-the-clock coverage and worldwide scalability - ensuring your workplace is secure, compliant, and ready wherever business happens.

TORONTO · NEW YORK · CHICAGO · BELFAST · LONDON · PARIS · DUBAI · TOKYO · HONG KONG · SINGAPORE · SYDNEY · AUCKLAND

	Customer Profile	Use Case
🏛	Private Markets	Options can support PE firms with technology migrations, cost-optimizations and PortCo security assessments. For a US-based Operating Partner, we provided a package of cloud security and DORA assessments for their PortCos.
📈	Capital Markets	Options can support customers with complex datacenter migrations or modernizations. For a global Hedge Fund, we proposed a cloud repatriation of their AWS infrastructure into Options Private Cloud, addressing cost predictability issues.

Leverage our deep industry expertise to find the best solution for your worst tech problems – reach out today.

Your workplace shouldn't fit someone else's template - it should fit yours. AtlasWorkplace Tailored Solutions give you the flexibility to design, modernize, and scale with confidence. From strategic advisory through vCTO and vCISO engagements to hands-on delivery for growth events, acquisitions, or infrastructure modernization, we help you build the right environment - secure, compliant, and built around your needs.
